HONGRONG, WEDNESDAY, OCTOBER 13, 1897. SPAIN'S COLONIAL POLICY.

It is as dangerous a policy to govern colony by coercion as it is to raise steam in a generator without a safety-valve. Popular feeling can no mere be suppressed that ther colonies I have mot many Spanish emnatural force. Yet the vain attempt to ployes who consider \$500 per annum posts attain this end lies at the root of the Spaniards' ill-success in the management of The colonial is trammelled in every contheir colonies. The vast American territories—now popularly termed the Spanish network of restrictions and vexatious rerepublics liberated themselves between gulations. Their only remedy has been the years 1819 and 1821 from the district repetition, which, if it has failed to rid them tasteful yoke of a cruel mother-country, the name of Spain, at least has often called which lavished upon them all the brutalities attention to their excesses. Wherever the Spaniards have held dominion their policy has been one of repression of the natural aspirations of the people Schools and seats of Jearning are established (under the control of the priesthood) presumably to dostion the intellect of the colonials, and give them a knowledge of the world and things in general yet, as soon as they exercise that knowledge, they are marked as hisaffected, and their wires is cut short on the first available pretext. Industry is nipped in the bud because, instead of lerying taxes on the result, the would be manufacturer or trader is obliged to pay heavily for a patent or licence before he starts in business, and thevery tax he has to pay in order to be allowed to try his luck in trade often constitutes a part of his annual loss in the venture. Nearly all the Government appointments with emoluments above a modest existence are allotted to Spaniards, with many of whom the natives and creoles can hardly treat without greasing the palm." Campillo affected to despise his numerous enemies, who regarded him as a thorn in their side, until he suddenly died on Holy Thursday in 1743, from what cause no one

knew though many surmised.

The Spanish Government entertain no sincere desire to concede any reforms either in their Far East or Far West possessions. General Martinez Campos, the advocate of ... conciliation combined with military demonstration, was sent to Cuba in the spring of 1895 when the Spaniards at homo wildly clamoured for extermination of system was more than counterbalanced by the insurgent Cubans, and imaginel it would not be an impossible task to vipe them off the face of the island. In the Philippines the dutives have shown that they are in carnest about their grivances. "The insurgents who took the field in different parts of Lacon Island amounted in the total to about 70,000 men. They are a race of placid character, very topolable, and resigned to their lot when

they have a small measure of justice. I have lived smong them for several years; but even to those unacquainted with the blanders and the maladministration of the polony it is not conceivable that 70,000 men should risk their lives and for everabanion their homes without serious cause. Small brigand bands have always existed and slways will, but in the recent movement. not yet totally entinguished, the flower of Luzon joined hands. And why? The extortions and avarice of the Spanish employes; the impossibility to redress one's wrongs. without bribary the corruption of all individuals, high and low, connected with the law courts; judicial persecutions by delaying sentences from one to ten years banishments without trial, and the familiarity and consequent contempt of the native due to the frequent intermarriage of Spanlards with the women of the country. are only some of the causes of discontent. But superior to all this is the attitude of the priesthood. The fundamental cause of hatred to Spanish rule is the dominion exercised by the monks. They consoriously inquire into every individual act of the native man or woman. They despetically bend the natives to their will, and show who resist become the victims of the religious corporations. Emerging from the lowest ranks of society. with no training but that of the seminary. they are void of all fine feeling, and display an arrogance past all teleration even by the patient native. The remedy is in the hands of the Government. The withdrawal of The P. M. Co.'s s. s. Azter, with the AMEthe monks would at least ensure peace for a generation. There is not a colony in the world which, depending on commerce for its prosperity, has flourished under ecclesiastical dominion. It is altogether impracticable to confide civil power to men of gross instincts like the Spanish friars. As to the purification of civil administration in a Spanish colony, it is necessary to draw the line of reform there. What is bred in the bone will come out in the flesh.' The The O. & O. Co.'s s. s. The only reasonable excuse that Spain can make to the world for the retention of colonies fallen into such a wrotched social condition is that, if left to their own resources now, they would plunge into a state of civil war for half a century or more. It has happened so in nearly every community which was once under Spanish rule, and is due to the bad education and example imparted to them by their former masters. Already the various groups of political wire-pullers in Cula and Porto Rico, who have brought pressure to bear on the Madrid Ministry by constitutional means, are at variance with each other as to who should predominate in the event of the reforms being The Cuban autonomists have hitherto done the work of agitating for reforms, and now that autonomy is talked of the constitutionalists suddenly step in with a vote of adhesion to the Madrid Govergment provided they can become tho recognised power in Cuba. Hence a conflict between these two parties is browing. Porto Rico has its complaints and its applications, which led to an outbrook some years ago whilst General Palacies was in command of the island. I thought I was fortunate in being introduced to General Palacies by a military friend at the Madrid Casino, but I found him so deaf that it was extremely difficult to elicit anything, so I visited Porto Rico in 1892. The administration would appear to be as defective there as in Cuba from a moral point of view, but the Porto Rico people wan appeared by certain reforms for about five years-from 1873, under the Republic, till 1878, two years after the Bourbon restoration, when the Minister, Senor Elduayen, curtailed their liberties. The preambles of this Minister's decrees clearly set The s. s. Catherine Aport, from Calcutta forth that Spain feared she had (under the Republic) given Porto Rico just a little too much freedom. These measures, however, have served to whet the appetite for the enjoyment of those reforms for which Porto Rico now quietly agitates. The independence of these islands is only a matter of time, and when theday arrives. Porto Rico will perhaps be man to establish order always seems to be forthcoming. The opening cricket I the Shield ties. match was a dreary affair, and it says little for the athletic enthusiasm of youthful Honglong that such Old Stagers as the Police Magistrate and the Harbour Master have to turn out to give the leading players a decent game. With the Interport matches in prospect a month hence, the local men will have to practise hard to, get into anything like form. They may make a fair show against the Straits, but I am afraid Shanghai will prove too good for them, more especially if W. H. Moule and St. Croix can come down to Hongkong.

Writing on the approaching Interport Cricket Match, 'Daybreak,' in Sport and Gossip, says :-

The Committee of the Cricket Club have THE UNION INSURANCE SOCIETY one to work sith a will asto arrangements for the coming battle in Hengkong, and already I hear that the following gentlemen have definitely decided to join the team if elected to represent the Model Settlement Messra Bell, Farbridge, Jackson, Lanning, Mann, McClure, Tyack, and the brothers Wallace. It is to be hoped that before the final selection is made the following names may also be added to the above list: Messrs Cumming, Firth, W. H. Moule, Stabb, and (Directors), N. J. Ede (Secretary), R. M. St. Croix. Mr Firth, who some time ago intended putting his name on the list, it much to be regretted now finds that business will not permit, but it is to be hoped that this difficulty may be overcome so that Shanghai, out of fourteen names mentioned above, may be championed in the Crown Colony by a really representative team.

Whilst on the subject of Interport matches, might I ask who is looking after the Interport Rifle team and what arrangements have been made for carrying through the match? Also, what has become of the Hongkong Rifle Association? No date has yet been fixed for the Annual Regatta of the Victoria Recreation Club, but it is anticipated to take place in the first fortnight of December next. The programme will probably contain some changes, and I hope to see the Garrison Cup re-instated to its place in the programme and to see naval and military crews striving for some of the honours. International rivalry is already running high, and hear that the Scotsmen, who won in 1895 and were just beaten in 1896, are to make a desperate effort to recover lost laurels. There is a lot of material to choose from, and I expect the Scotch crew will be selected from Henderson, Armstrong, Mollison, Wilson, Stopani, Fallerton, Ronald and Meek. I may say, in a great messure owe the splendid position the Society is in. You will, of course, understand this is our Secretary Mr Ede, who finds that he does hut feel able to spend any more summers in Hongkong, and therefore has decided to retire next spring. Now, gentlemen, as this is our Annual Meeting I thought it appropriate to bring this to the notice of by the lesson book, in which was written; the shareholders to-day, who no doubt The hen lays 200 eggs a year on an appropriate to bring this to the notice of will regret his departure as much as the Directors do. Mr Ede-Mr Chairman, I thank you

and I thank you, gentlemen, for signifying Diseases, Pimples and Sores of all bride the your concurrence with what has been said by the Chairman. Although the prosperity of the Society may perhaps be attributable by it. Clarke's Blood Mixture is sold everyin some measure to my administration its affairs, I cannot accept the compliment paid by the Chairman without saying that the success of the Company has likewise been largely due to the valuable co-operation and guidance of the Directors, to the able management of the gentlemen in charge of our branches and to the loyal and intelligent assistance of many of the members of our staff at our branches as well as here at our Head Office. You will readily understand, gentlemen, with what profound feelings of regret I retire from my post, when I tell you that I have been Seannoyance—the wee trumpeter sounding re. loss of several prominent players, but I am | cretary of the Society for more than 26 years and that I was previously associated with it for five years from 1862 to 1867 when the management was in the hands of Dent & Co. I derive however much comfortand satisfaction from the knowledge that the Society is in a sound and flourishing condition and from the consciousness that I leave behind me men able to care for your interests as well if not better than I could do myself. This is probably the last general meeting of Shareholders which I shall have the privilege of attending, at all events as your Secretary, and I take the opportunity of desirable he should do so. Gow, the thanking the Directors past and present for I their invariable kindness and courtesy towards me, and I wish to thank the Directors and the Shareholders for the confidence they have reposed in me lot no many years. "Dear Sir,—I am a poor hand at expressing my feelings, but I should like to thank you.
Your lorenges have done wonders in relieving my terrible cough. Since I had the operation of Trashootomy' (the same as the late Emperor of Germany, and unlike him, thank God, I am still alive) performed at St. Barthelomew's Hospital, he one could possibly have had a more violent cough; it was so had at times that it quite exhausted me. The muscus, which was very out-

hauted me. The mucous, which was very copious and hard, has been softened, and I have been able to get rid of it without difficulty.—I am, sir, yours truly, J. HILL." A DOCTOR'S TESTIMONY.

FAILURE OF ELECTRIC APPLIANCES.

The Secretary of the United States Navy has decided that the new warships shall not receive electric appliances for their turnet movements, failure having so far attended the attempts which have been made, though in the beginning these were regarded as eminently satisfactory. Therefore the Illinois, Alabama, and Wisconsin will be furnished with hydraulic apparatus as in our own ships. The turrets of the armoured cruiser Brooklyn, which are moved by electricity, demonstrated that, though the trials had proved satisfactory in a measure, the progress accomplished in such apparatus was yet quite insufficient to justify the general application of the principle. good deal of dissatisfaction is felt that has been found necessary to despatch the Indiana, which is to be followed by three other vessels, to Halifax, to be decked.

THE GLOWWORM'S LIGHT.

Until recently it was believed that oxygen rendered the protoplasm of the cashire Artillery Volunteers. He was also organ phosphorescent with disongagement one of the deputation which had an interof phosphuretted hydrogen; but Professor view with Sir Cecil Smith, Major Gen-Muraoka, following the hint of Becquerel, | craf (Sir) W. G. Cameron and Col. (Sir) F. the French chemist, to the effect that salts of uranium and other fluorescent bodies | cember, 1887, in reference to the formation emit rays similar to the Rontgen rays, has of the Corps, in which Mr Bean was the found that glowworm light also behaves like | first Corporal of A Subdivision. Socially these rays. Three hundred glowworms Mr Bean was much liked, and in theatrical caught near Kioto (the sport is popular with | entertainments he used to take a creditthe Japanese ladies in midsummer) were lable part. Mr Malcolm Bonn, we regret placed in front of photgraphic plates screen- to say, leaves a widow and a young family. ed from the light by several thicknesses of black paper, as well as plates of brass, copper, and aluminium. A cardboard with a hole in it was placed between the metal and the photographic place. For two days the arrangement was kept in a dark chamber sheltered from all foreign lights, and an developing the plate | kong, 12th October, Messrs Benjamin, it was found blackened by the rays except | Kelly and Potts write :opposite the hole in the cardboard. The rays of the glowworm can therefore penetrate metal, especially aluminium and coppar, and appear to excite luminosity in cardboard. When there is nothing between the sensitive plate and the glowworm it behaves like ordinary light, but in traversing some metals, and cardboard it seems to acquire properties of the X rays, or else the glowworm emits X as well as ordinary rays.

THE LATE MR MALCOLM BEAN. Singapere, Oct. 4. The news that Mr Malcolm Bean, a former

resident of Singapore, had died in Java, which reached Singapore last week, is, we fear, correct, although the circumstances are not yet to hand. Mr Malcolm Bean came originally to the Straits as an assistant to the firm of Syme

& Co., about eleven years ago. He subsequently proceeded to join the Java branch of the business and ultimately set up in business for himself, besides going in for planting on a fair scale. Of late he took np the Managership of the New York Life insurance Company, working the Straits, Java, Sumatra, Siam, Saigon, &c. In the course of this business management Mr Bean must have made himself widely and favourably known to many residents in 818 these countries.

Mr Bean was one of the original dozon gentlemen who formed the provisional Committee which had for its object the formation of the S. V. A., he having previously held a commission in the 2nd Brigade Lan-Cardew at Government House early in De-There are many in the Straits and Batavia who will hear with very deep regret of the early death of Mr Bean. - Free Press.
